## Nota sobre alcance

Las referencias proporcionan sustento teórico/metodológico y normativo; sus hallazgos no son métricas generadas por SaborExpress. La revisión bibliográfica es dirigida, no una revisión sistemática PRISMA.

## Criterios de calidad de las fuentes

**Literatura académica:** utilizar DOI y metadatos de revista verificables y evitar citas inventadas. **Normas técnicas:** citar la versión y fecha exacta, por ejemplo ISO/IEC/IEEE 29148:2018 e ISO/IEC 25010:2023. **Fuentes primarias:** los repositorios SaborExpress son materiales de estudio, no evidencia de uso productivo. **Metadatos pendientes:** donde no se conozcan todos los autores, se indica por revisar y se evita presentarlo como una ficha APA definitivamente validada. **APA 7:** cada cita textual o parafraseada debe corresponder a una entrada bibliográfica con URL persistente, DOI cuando exista y sangría francesa.
